

Health & Safety Awareness

This basic health and safety course are designed for all staff that are not otherwise trained in health and safety. This course is a basic introduction for all levels of personnel who are non-health and safety experts. The training will give staff the information they need to keep themselves safe at work.

Who should attend the Health & Safety Awareness course?

This training will be unbelievably valuable for all staff that are not otherwise trained in health and safety.

What are the benefits of attending Health & Safety Awareness?

This workshop will enable delegates to:

- Carry out work activities without risk to themselves or others and understand the consequences if they fail to work safely
- Identify hazards, risks and risk controls and understand the importance of risk assessment with examples of everyday use of risk assessment
- Take appropriate workplace precautions and understand their importance in the work environment
- Identify lines of communication in their places of work
- Identify safety signs and signals
- Know how, and to whom to report accidents, incidents and near misses in their places of work.
