

Waste Management

This one-day course on waste management is aimed at managers/supervisors who have responsibility for ensuring that the waste produced on site is managed in accordance with legal requirements, focusing on the duty of care of waste. This could range from ensuring that the duty of care is complied with to minimising waste production and segregating waste prior to recovery/recycling. It will also be of benefit to environmental practitioners who need a refresher.

Who should attend this Waste Management Course?

managers/supervisors who have responsibility for ensuring that the waste produced on site.

Key topics

- Key reasons for duty of care
- Fundamental obligations of duty of care
- What the legislation covers and means in practice
